

Changes to Annual Utilization Report of Primary Care Clinics – 2003

December 10, 2003

New and/or Revised Data Items

Section 2 – Clinic Services

- Line 1 - The License Category (Type) table that classifies the clinic as Community or Free will be automatically filled by ALIRTS. This data is based on information contained in the Licensed Facility Information System (LFIS).

Section 3 – Patient Demographics

- Line 1 - Included Hispanic with the White category under Race Table.

Section 5 – Encounters by Principal Service

- Line 5 - Added new CPT codes 99354-99360 for “Other Evaluation and Management Services”.
- Line 12 - Changed CPT codes ranged from 10021-19499 for “Integumentary System”.
- Line 13 - Changed CPT codes range from 20000-29999 for “Musculoskeletal System”.
- Added Line 33 - CPT 0001T-0044T for Category III codes. They are mandated to be used instead of the unlisted CPT codes.

Section 5 – Selected Procedures

- Changed - Report the number of “encounters” to “procedures” for each code (or range of codes) regardless of whether it is the primary or subsequent procedure code.
- Line 50 - Added CPT code 76085 for “Mammogram”.
- Line 52 - Added CPT codes 88174-88175 for “Pap Smear”.
- Deleted Line 54 on abortion.
